

Private jet travel made simple with best-in-class safety and reliability at the lowest available prices.

Executive Summary

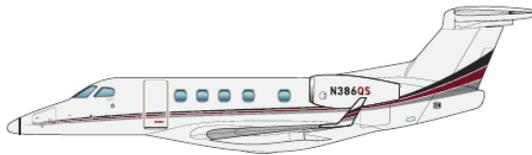

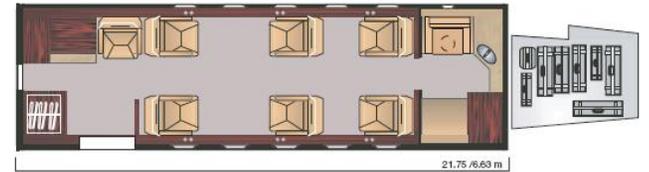

- Daniele Family Companies contracts a \$3,106,685.00 five-year commitment with Netjets to lease a Phenom 300 for 75 hours per year. (See airplane specs attached.) This commitment level receives the lowest available rate with absolutely no blackout dates. After each calendar year the actual flying costs will increase by 2-4% based on CPI.
- This jet sharing program is limited to only 9 participants. There are no blackout dates and travel may be reserved with as little as 48 hours advance notice. The yearly cost commitment starts at \$62,137 due upon initial commitment. Only a one-year commitment is necessary however participants may purchase additional years on each anniversary.
- Each participant will receive a set number of hours per year, and any unused hours may be carried over to the next year but will expire at the end of the 5th year. Participants may barrow, share, or gift their hours to and from whomever they wish, and whenever they wish.
- The program allows for the use of one aircraft per day, with unlimited continued trips within that day. Occasional coordination may be required on peak days when multiple groups choose to use the plane on the same day.
- This program will be by far the simplest and least expensive private jet option you will ever have access to. This program allows for short notice booking with 100% guaranteed travel assurance with the best-in-class operator all at your fingertips and available anytime. This program is for individuals who may only use 0-12 hours per year.
